Schools Get Schooled on Continuous Energy Improvement

BECC October 2016
How do you motivate kids to turn off lights when they leave the classroom?
Program Description

Two year program to provide technical support to schools to integrate energy management into their culture by creating a **Strategic Energy Management** plan including:

- Energy Policy Implementation
- Annual Goals and Objectives
- Planned Actions
- Sustainability Team
- Employee and Community Energy Awareness
Continued Engagement

Schools are engaged and enthusiastic, continue to implement behavioral activities, and achieved 5.7% savings in first year*

* Savings compared to baseline consumption
Customer Satisfaction

All schools were *very* or *somewhat* satisfied with the program.
District Level Program Adoption

Customer Commitment

Planning & Implementation

Measuring & Reporting
Conclusion

Schools were engaged and satisfied with the program

They plan to continue implementing some activities after the program ends

Achieved savings
